## INTRODUCTION

Global energy and power crisis problems are there, researchers are thriving to combat this problem. Nanotechnology is one such technique to mitigate this global issue. This seminar is an initiative to provide a common platform for researchers specially related to energy and power devices. The idea is to share knowledge and their contribution among different stakeholders. This seminar will be suitable for renowned researchers, young scientists, engineers from industries and other keen professionals (R&D, manufacturers).

## SEMINAR THEMES

- ❖ Nanotechnology for power system
- ❖ Nanotechnology for energy and environment
- ❖ Emerging trends in nano-electronics
- ❖ Nanotechnology for solar photovoltaics
- ❖ Nanotechnology for fuel cells and super capacitors
- ❖ Synthesis and characterizations of advance nano-materials
- ❖ Sensors and actuators
- ❖ Frontiers in nanomaterials and its diverse applications

## CALL FOR PAPERS

Interested participants may submit their full length paper based on their recent work related to the theme of the seminar. Full length paper may be submitted by email: [coordinator.aicteseminar2017@gmail.com](mailto:coordinator.aicteseminar2017@gmail.com).

**Selected paper presented during the seminar will be published as an edited volume with ISBN Number. However, the decision of Jury will be final for selection of papers to be published.**

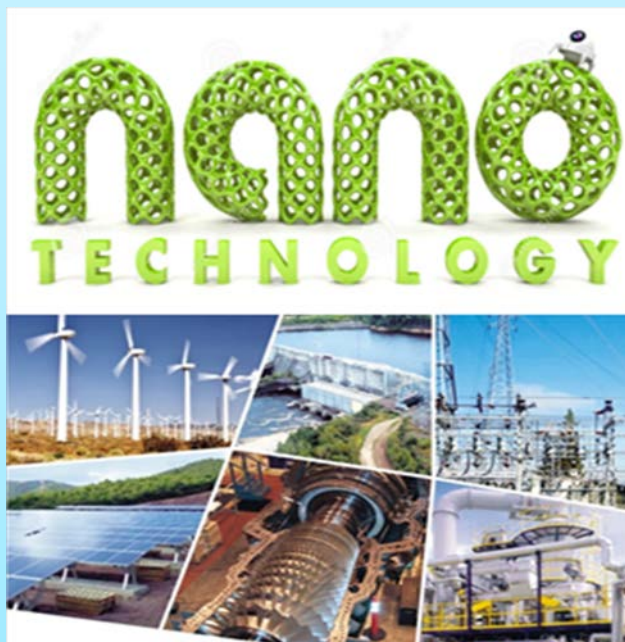

The template for the full length paper is available at the college website, [www.ctae.ac.in](http://www.ctae.ac.in).
