Sub: Residential Training Programme on "Waste to Wealth" at GOA during November 13-17, 2017

Dear Sir/Madam,

We are glad to inform you that National Productivity Council, Chandigarh is organizing the above-mentioned residential training course during **NOVEMBER 13-17, 2017 at GOA.**

Industrialization is inevitable for the development in India. However, it also causes serious environmental pollution and generates waste generation. Today, industrialization and population growth are leading concerns for rampant pollution in India. Therefore, we cannot afford to generate wastes or dispose of wastes through unscientific means and create pollution.

We need to be sensitized that Environment and Economic growth can go hand in hand, by utilizing our resources effectively and minimizing wastes and doing our bit for Pollution Prevention. This training program is designed to train the participants on the environmental issues currently faced by the companies/organizations/institutes, and the means/tools to tackle these issues. The latest environmental solutions to companies to improve upon their environmental performance and bring about enhanced monetary savings, improved environmental performance and improved productivity to their respective companies/ organization/institutes, would be covered.

It will also help in achieving the objective of "Swachh Bharat Mission" together with sustainable growth and go a long way in improving the environmental performance of the country.

A brochure containing detailed information about the programme (course coverage and programme fee) is enclosed. You are requested to nominate personnel from your organization to participate in this programme. The programme is residential and fee is inclusive of board and lodge. The numbers of seats are limited and nominations will be accepted on first-cum-first-served basis.

Thanking you,

Dr. Mahesh Kothari
Tegip cell
Pl. discuss to nominate participants
