ANNOUNCEMENT

NATIONAL SEMINAR

February 19-20, 2010

Conservation of Lakes and Water Resources : Management Strategies

Organized By

College of Technology and Engineering
Maharana Pratap University of Agriculture and
Technology, Udaipur, Rajasthan

Sponsored By

Department of Environment
Government of Rajasthan, Jaipur

Aims of Seminar

Water has been an essential part of life ever since life has emerged on this planet. All human habitats and civilizations have developed around water resources. With the advancement of technologies and changed life style, water is becoming a scarce commodity. As a result of population explosion and expansion of industries, conservation and recycling of water have become very essential. Government, Non government and International organizations are working hard to conserve and maintain the quality of water. The quantity and quality of water supplied in cities and villages do not meet the BIS and WHO standards. Awareness and education of the people to adopt simple home techniques for conservation and purifying water at least for drinking purpose must be encouraged. This calls for all organizations engaged in water and health environment to come together to conserve the water resources and ensure supply of good quality water. **The College of Technology and Engineering, Udaipur is going to organize a two days National Seminar on Conservation of Lakes and Water Resources: Management Strategies, on Feb. 19 and 20, 2010.** This seminar will provide a forum for the exchange of information among experts in this rapidly growing field of great concern, particularly different aspects of conservation of lakes and water resources. The wealth of information exchanged in this National Seminar will be of great benefit to all involved with water environment and its management.

Call for Papers

Papers are invited on the following themes

1. Lakes, rivers, water resources conservation
2. Land and water interaction
3. Water Pollution: Monitoring & Management
4. Urbanization :Its impact on water resources
5. Solid waste management: Approaches
6. Hydrological and Limnological aspects
7. Lake water quality problems
8. Application of new technologies

9. Impact of human interference and land use pattern
10. Management, conservation & rejuvenation strategies for lakes and water resources

Two copies of the complete paper, in not more than 1500 words (in MS Word Format), along with a CD may please be submitted to Convenor, Dr. S.M. Mathur by **January 21, 2010**. Acceptance will be communicated within one week of the receipt of the full length paper. **The author or one of the joint authors must attend the workshop to present the paper. The presented papers will be published in the proceedings (Edited book) depending upon the recommendations of the technical committee.**

There will be a best paper and poster award for the students that will include a certificate and memento.

Udaipur by Feb. 15, 2010. The organising committee has decided to waive off 50% of the registration fee for teachers and all individuals whose papers are accepted for presentation in the technical sessions. The registration fee includes admission to all technical sessions, lunch, tea and delegate's kit.

Udaipur at a glance

Udaipur, a beautiful city of Lakes, Palaces and Fountains attracts large number of tourists from within the country and abroad. Serene in the shadows of dark green hills, three lakes- Pichhola, Fatehsagar and Udaisagar are shimmering jewels, from the opal surface of which rise fairy snow white palaces, Jagmandir and Jagniwas. The famous temple of Shrinathji at Nathadawara (50 km) and Chittorgarh fort (110 km) are other places of interest.

Accommodation and Travel

Udaipur is well connected by Air-Lines from Delhi and Mumbai. It is also connected by Express Trains; from Delhi, Mumbai and various corners of India. Private luxury buses are also available to & fro from Delhi, Ahemdabad, Baroda, Mumbai, Bhopal, Indore etc. Accommodation will be provided in university guest house on payment basis on first come first serve basis.

Site Seeing

A contributory visit to places of tourist interest shall be arranged on Feb. 21, 2010.
