सुप्तानाम् उत्थानम्

Volume : IV

Issue : 2

Sept. 2013 - Jan. 2014

**From the Desk of
Director, Planning and Monitoring**

It is a matter of great pleasure to learn that a monthly news letter "CTAE Times" is being published by the 1st year B.Tech. students of CTAE on a regular basis. I was delighted to see the coverage of monthly events organised in the institute along with emphasis on the technical and literary knowledge and creativity of the students. This type of team activity not only develops a team spirit but also gives fillip to the communication skills, personality and confidence of the students involved. I strongly recommend that all the students should equally participate and contribute in bringing out this publication as it will enhance the interpersonal skills and relationship of all the students. Literary work also gives a chance to gain better knowledge of language and communication skills which is a primary requirement to day in securing good placement and jobs in reputed organisations. The effort of the students tuned up with that of the faculty is highly appreciable.

On the publication of this issue I wish to extend my hearty congratulations not only to the students but also to Dr. M.A. Solada, ADSW and Prof. B.P. Nandwana, Dean of the college in bringing out this publication. I also wish that the students maintain their enthusiasm, zeal and high spirits in publishing the further issues of "CTAE Times" and go a long way in future.

Best wishes to one and all.

**Prof. J.L. Chaudhary
Director (P&M)**

TEQIP : THE EXPANSION OF TECHNICAL FRONTIER

CTAE welcomes one of the most awaited & eminent jewels in the crown of CTAE, which will accelerate the zealous youth with the quintessential goals of learning. TEQIP is a docket commenced by MHRD and the World Bank to augment quality of education, predominantly by enhancing the innovation, research and employability of our educational institutes. It sets up remedial classes for students getting backlogs and all manner of conferences, workshops and seminars. This vision is impossible to accomplish without the support of the most important player in this field – YOU, the techies of CTAE. Join hands to support this venture -

BASIC ROBOTICS WORKSHOP

Young Vistas

Four amazing years in C.T.A.E

First day of college reveals our fate,

Lecture starts at 10 A.M. still we are late.
The most dreaded experience of college awaits,
Seniors set us up as their baits.

First year is over, as we enter second,

People roam around the college as legends,
All friends in different branches and welcoming juniors,
After all it is the first time in C.T.A.E. that we are the seniors.

In the third year, we don't even submit files till the last warning,

Oh! those worries about pre-placement tests and summer training.
The burden of engineering finally dawns upon us,
And we have our own careers and future to focus.

In the final year, we play, we stay, we walk, we talk, we jump and we run,

We study a little something but mostly we have lots of fun.
The farewell speech brings all of us to tears,
As we are filled with nostalgia, remembering the past four years.
